https://www.unco.edu/social-research-lab/blog/clcs_partnership.aspx

2. Decide what the survey should look like and make a plan to compose the survey

We looked at two options: The School Perceptions Parent Survey (<http://www.schoolperceptions.com/>) and the UNC/League of Charter Schools.

Considerations:

1. Cost
2. Does the School Perceptions Parent Survey include Charter School data?
3. Ease of use/administration
4. How soon can it be available?

Purpose(s) of Mountain Song Community Survey:

1. Provide information about how satisfaction rates might impact retention/non-retention
2. Provide grade-level data
3. Highlight possible issues for UIP
4. Measure parent engagement
5. Compare data with future planned student survey data (student engagement)

Follow up:

Sarah will contact both to check on price, what do they do with information, how soon is it available, customizable?

Sarah will then contact Michael so that he can contact SAC members with the information and examine the different surveys

SAC will meet Monday 2/11/19 to vote on which survey to use

In Attendance:

Teresa Woods, Nicole Nicoletta, Sarah White, Dan Cordova, Teresa Gretsky, Michael Katzenberg
